EYA JOMLI

SOFTWARE ENGINEER

Eya-Jomli
Eya_Jomli
eya.jomli@esprit.tn
+49 015511281053

Driven software engineer with experience creating meaningful applications in international team settings. Collaborative and adaptable, with a passion for continuous learning and improving software quality. Always eager to embrace new challenges and deliver reliable, maintainable solutions.

Languages:

English | B2
French | B2
German | A1(learning)

Skills:

SpringBoot, ExpressJS, Django, Symfony, .NET, Angular, React, Java, SQL, Odoo, Devops, GIT, jenkins, JUnit, Sonar, Mocha, Vercel, Nexus, Docker, Grafana, Prometheus, Jenkins, Jira, Linux, ISTQB, Odoo

PROFESSIONAL EXPERIENCE

Frontend Developer Intern, Desion GmbH
Darmstadt, Frankfurt
09/2025 - Present

- Reduced page load times by 25% across 3 projects by refactoring legacy HTML and transitioning to a reusable, optimized, component-based UI architecture

Tools: React.js, Tailwind, Python, Chrome DevTools Lighthouse

Frontend Developer Intern, Ausbildungsbasis
Frankfurt (Remote)
12/2024 - 07/2025

- Redesigned and implemented a responsive, modern user interface using Laravel Blade and Livewire, cutting the go-live timeline and improving usability and maintainability

Tools: Laravel, Blade, Livewire, HTML, CSS, Jira

Full stack developer Intern, QuantStats
England (Remote)
07/2024 - 09/2024

- Developed a football analytics platform implementing scalable microservices architecture.
- Enhanced football match analysis in Tunisia, enabling data-driven decisions.

Tools: Angular, SpringBoot, PostgreSQL

Data Analyst Intern, Poulina Group Holding
Ezzahra, Tunisia
07/2023 - 09/2023

- Developed and implemented a sales dashboard using Power BI to centralize, transform, and visualize sales data for Poulina Group Holding, enhancing strategic decision-making.

Tools: Power BI, SSIS, SQL Server, Excel

Final Year Internship - Recognition of individuals from an ECG signal
Sfax, Tunisia
02/2022 - 06/2022

- Preprocessed ECG data using filtering, peak detection, and segmentation.
- Extracted key features to improve classification accuracy with ML models (SVM).

Tools: SVM/matplotlib/matlab/UML/Agile

ACADEMIC PROJECT

GreenRecycle – 2024

- Developed an AI-powered web app for early plant disease and pest detection using Transfer Learning (InceptionV3, MobileNetV2) and YOLO for real-time recognition, with an interface to manage and display results.

Tools: Django, InceptionV3, MobileNetV2, YOLO, CNN, Transfer Learning

Social Network at Work for Universities – 2024

- Significantly improved the relevance and quality of user matches by architecting an AI-integrated social platform with intelligent user connections, automated CI/CD pipelines, and scalable containerized deployments
- Optimized reliability through JUnit, Sonar, and real-time Grafana/Prometheus monitoring.

Tools: React.js, Redux, Node.js, MongoDB, Django, AI, JWT, Tailwind, Flask

EDUCATION

Engineering degree in Computer Science, accredited by the CTI and recognized by the European Commission. Esprit
2022 - 2025
Tunisia

Bachelor degree in data analysis and big data ISIM Sfax
2019 - 2022
Tunisia
